INNOVATIVE INSTRUCTION

A leader in innovative instructional technology: One of the first districts in the U.S. to install an interactive whiteboard in every classroom.

Full-time programs for intellectually gifted and advanced students are offered throughout the district and at Pine View, a school for gifted students in grades 2-12.

Services for students with severe developmental or physical challenges are available at designated sites and at Oak Park School, a specialized facility for exceptional students.

STEMsmart TechActive Classrooms in middle schools and Technology Enhanced Learning Studios in high schools facilitate creative, collaborative learning using state-of-the-art technology and instructional methods.

The district offers a wide variety of school choice and magnet programs, including International Baccalaureate, Advanced International Certificate of Education, Visual and Performing Arts programs and a Young Marines program, the first of its kind in the U.S.

Middle school students select a major area of interest to help them plan for high school and beyond.

Career and Technical Education classes prepare students for higher education and the 21st-century workforce.

HIGH-PERFORMING DISTRICT

Sarasota County is one of only two districts in Florida that has earned an A every year since district grading started in 2004.

STRONG COMMUNITY SUPPORT

12,000 students, parents, community members and business leaders participate in the district's Volunteer and Partnership Program. Volunteers provide more than 300,000 hours of service annually, with an estimated value of \$5 million.

Voters support additional school funding. A referendum passed with 77-percent support in 2014 and has passed every four years since 2002.
